## Part 1: Overview

---

### Part 1.1: Mitigation Plan for Four New Jersey Counties

The Mitigation Plan for Four New Jersey Counties (NJ4 HMP) incorporates input from approximately ninety (90) participating municipalities in Camden, Cumberland, Gloucester, and Salem Counties. The NJ4 HMP is an update and expansion of the South Delaware Valley Region Multi-jurisdictional Hazard Mitigation Plans that were adopted by all four counties and approved by the Federal Emergency Management Agency in 2010 and 2011.

The NJ4 HMP has two main parts:

- Regional Hazard Mitigation Plan
- County and Municipal Appendices

The Regional Hazard Mitigation Plan includes descriptions and information that is common to all participating NJ4 HMP jurisdictions organized according to the following three main focus areas:

- Planning Process
- Hazard Identification and Risk Assessment
- Mitigation Measures

The Regional Hazard Mitigation Plan also includes Annexes that contain detailed background information for these three focus areas and additional reference materials for the implementation of the NJ4 HMP.

The County and Municipal Appendices include specific information for these same three main focus areas for each of the participating municipalities. Detailed tabulations are included in these Appendices for critical facilities, status of past mitigation activities, and proposed mitigation measures for each municipality.

### Part 1.2: Pitman Borough (Gloucester County) Municipal Appendix

This Municipal Appendix is focused on Pitman Borough in Gloucester County, New Jersey.

The Pitman Borough Municipal Working Group recommended the Pitman Borough (Gloucester County) Municipal Appendix for adoption to the Pitman Borough Council.

The Pitman Borough Council adopted the Municipal Appendix by resolution (see Attachment B: Adoption Resolution).

Region II of the Federal Emergency Management Agency subsequently approved the Municipal Appendix (see Attachment C: Approval Letter).

## Part 2: Participation

### Part 2.1: Municipal Working Group Participation

Part 2.1 includes:

- *Municipal Working Group members including positions in the community, meetings and work sessions attended, and specific contributions to the Municipal Appendix*
- *Municipal positions and organizations that were invited but were not able to participate in the plan update process*
- *Municipal positions and organizations that have been recommended by the Federal Emergency Management Agency (FEMA) as candidates for participation on Municipal Working Groups but do not exist in the municipality*

Table GC.16-1 identifies the Municipal Working Group members. As explained in *Section 2: Planning Process* of the Mitigation Plan for Four New Jersey Counties (NJ4 HMP) Regional Hazard Mitigation Plan, the Municipal Working Groups are comprised of community representatives who worked to make sure mitigation measures included in the Municipal Appendix addressed the risks faced by residents, businesses, and property owners and reflected the priorities of the community. The Working Group will also continue to stay involved during the implementation and maintenance of the NJ4 HMP.

**Table GC.16-1: Pitman Borough (Gloucester County) Working Group**

First Name	Last Name	Department	Position	Round 1 Work Session <sup>1</sup>	Round 2 Work Session <sup>2</sup>	Contribution <sup>3</sup>
James	Foley	Pitman Borough Office of Emergency Management	OEM Coordinator	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Organized Working Group and Work Sessions.
Mike	Mellet	Pitman Borough Office of Emergency Management	Deputy OEM Coordinator	<input checked="" type="checkbox"/>		
Russ	Johnson	Pitman Borough Executive Committee	Mayor	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Judy	O'Donnell	Pitman Borough Clerk's Office	Borough Clerk / Administrator	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Provided municipal documents for review.
Jeffrey	Kier	Pitman Borough Construction Office	Construction Official / Floodplain Administrator			Floodplain Administrator reviewed the Preliminary Appendix.
Steven	Alexander	Pitman Borough Public Works	Public Works Manager	<input checked="" type="checkbox"/>		
Matt	Paden	Pitman Borough Water & Sewer Department	Water Department Foreman		<input checked="" type="checkbox"/>	
Kevin	Austin	Pitman Borough Public Safety	Director of Public Safety	<input checked="" type="checkbox"/>		

<sup>1</sup> Round 1 Work Session was held on August 14, 2014.

<sup>2</sup> Round 2 Work Session was held on October 23, 2014.

<sup>3</sup> Municipal Working Group members reviewed briefing materials in advance of Work Sessions, contributed during Work Sessions, and reviewed the preliminary Mitigation Plan for Four New Jersey Counties. Additional or unusual contributions are noted in the far right hand column of Table GC.16-1.

## Part 2: Participation

First Name	Last Name	Department	Position	Round 1 Work Session <sup>1</sup>	Round 2 Work Session <sup>2</sup>	Contribution <sup>3</sup>
Gregory	Owens	Pitman Borough Police Department	Sergeant Police Officer	<input checked="" type="checkbox"/>		
Christopher	Leach	Pitman Borough Police Department	Patrolman		<input checked="" type="checkbox"/>	

The following lists candidate positions and organizations within the community that were extended invitations but could not participate during the development of the Municipal Appendix. These positions and organizations will continue to be extended invitations to participate during subsequent plan implementation and maintenance activities.<sup>4</sup>

- Land Use / Economic Development Planner
- Engineering
- Fire
- Business Associations
- Community / Faith-Based Organizations
- Healthcare Institutions
- School Board

The following lists positions and organizations that are generally recommended for consideration as members of the Municipal Working Groups by FEMA but do not currently exist within the community. An invitation to participate will be extended if positions are created or filled and as organizations are formed.

- GIS / IT Specialist
- Transportation Department Directors / Supervisors
- Emergency Medical Services
- Environmental Organizations
- Non-Governmental Organizations
- Critical Infrastructure and Key Resources
- Major Employers and Businesses

---

<sup>4</sup> See *Section 4: Mitigation Measures* of the NJ4 HMP Regional Hazard Mitigation Plan.

---

## Part 2: Participation

---

### Part 2.2: Public Participation

Part 2.2 includes opportunities provided to the public and interested parties in the municipality to participate during the plan update process.

Table GC.16-2 identifies the date, type, and location (where applicable) for opportunities provided to the public and interested parties to participate in the development of the plan update.

**Table GC.16-2: Public Participation**

Date	Type of Involvement	Location
December 15, 2014	Link to Project Website ( <a href="http://nj4hmp.com">http://nj4hmp.com</a> ) established and Preliminary Municipal Appendix posted to website for public comment	Pitman Borough Office of Emergency Management webpage <sup>5</sup>
December 24, 2014	Public outreach	Pitman Borough facebook page
May 11, 2015	Public hearing included on Pitman Borough Council agenda providing for open discussion, and public comment regarding the Preliminary Municipal Appendix	Pitman Borough Hall

Public comments and input received for the Preliminary Municipal Appendix were considered by the Municipal Working Group and incorporated into the Draft Municipal Appendix where appropriate. Public comments received during the review of the Preliminary Municipal Appendix were included in Attachment A to the Municipal Appendix along with a brief explanation of how the comments were addressed in the Draft Municipal Appendix.

In addition, the Municipal Appendix was adopted as part of a regularly scheduled public meeting (see Attachment B: Adoption Resolution).

Public education and outreach is an on-going mitigation measure included in the Municipal Appendix.<sup>6</sup> In addition, public participation will continue to be encouraged during subsequent plan implementation and maintenance activities.<sup>7</sup>

---

<sup>5</sup> <http://www.pitman.org/office-of-emergency-management.html>

<sup>6</sup> See Mitigation Measure M-1 in Part 4 of the Municipal Appendix.

<sup>7</sup> See *Section 4: Mitigation Measures* of the NJ4 HMP Regional Hazard Mitigation Plan.

## Part 3: Hazard Identification and Risk Assessment

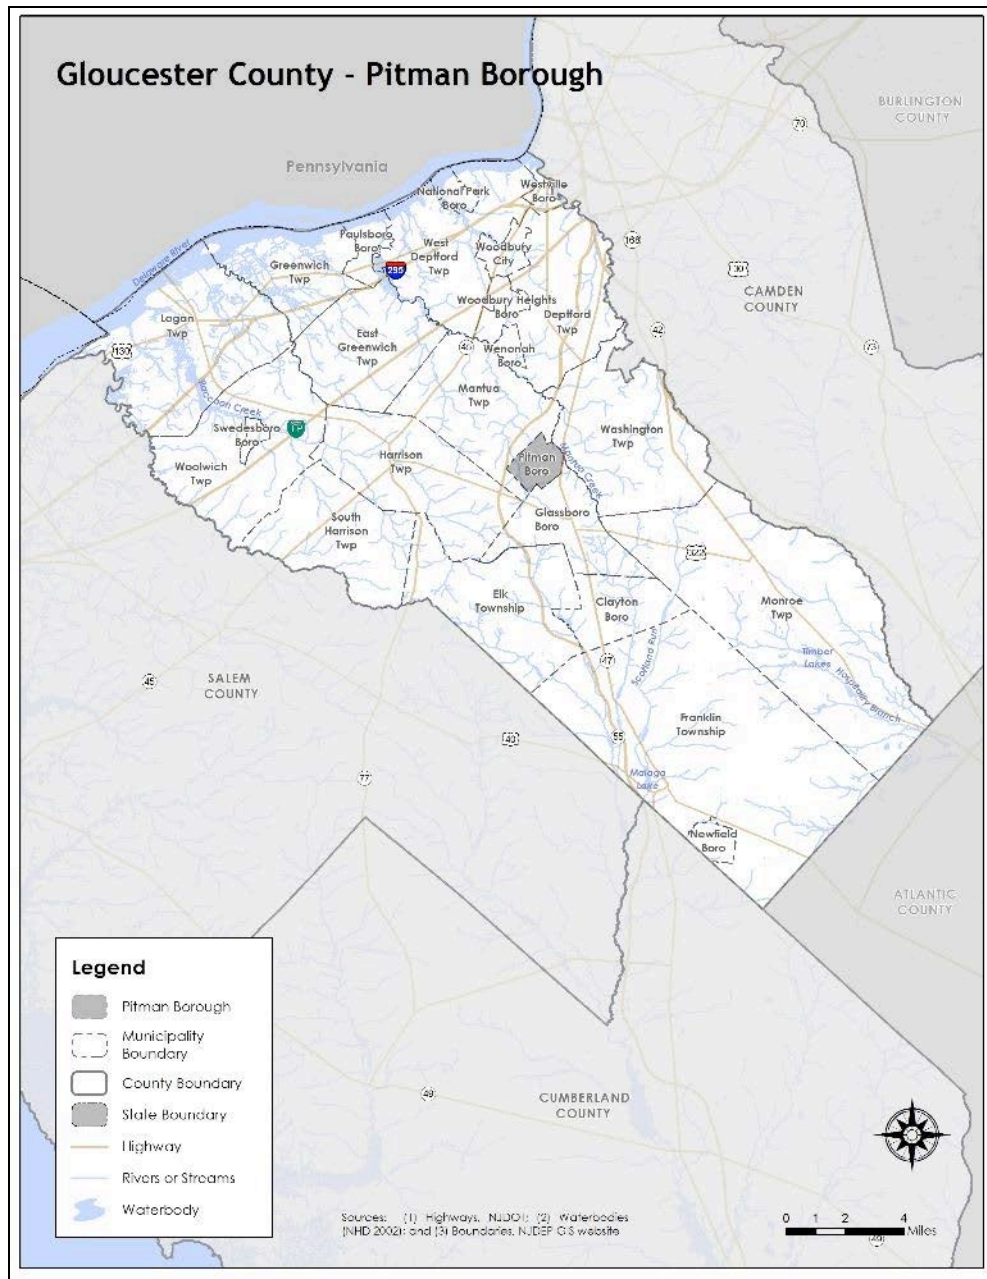

### Part 3.1: Municipal Profile

Part 3.1 includes:

- Selected data and information about the municipality that is generally relevant for emergency management planning and specifically for hazard mitigation
- A brief character sketch for the municipality that is only intended to portray a few of the most basic elements

Pitman Borough is located in the central part of Gloucester County (See Figure GC.16-1).

Figure GC.16-1: Pitman Borough (Gloucester County) Location Map

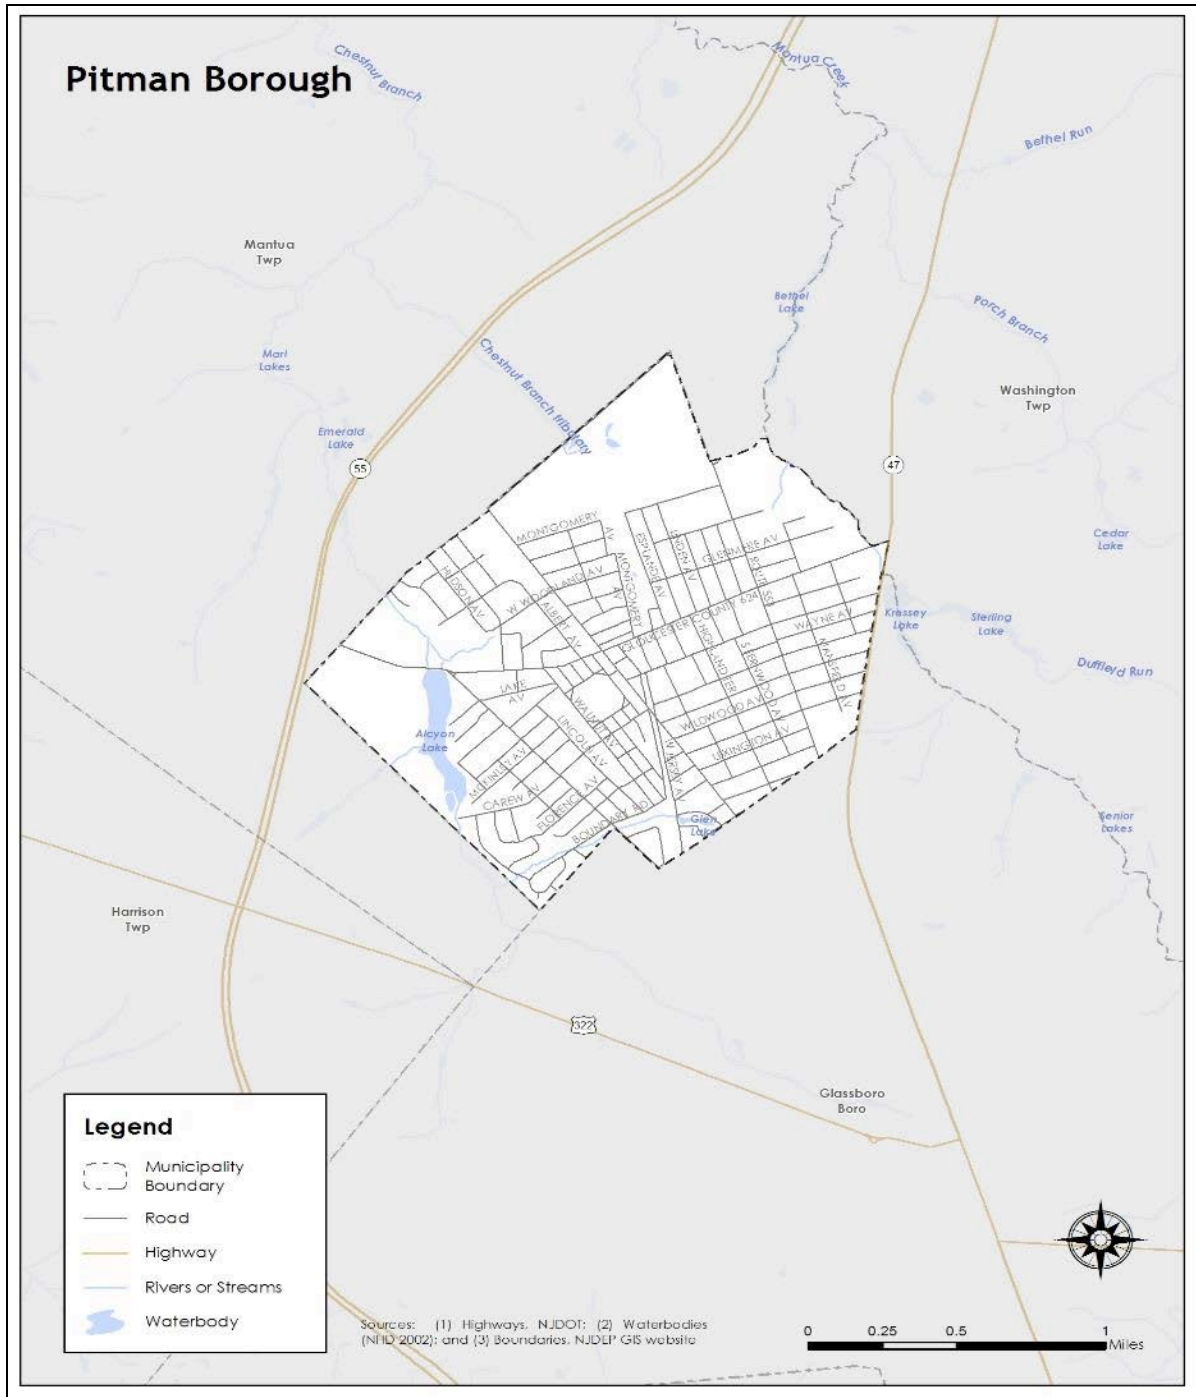

### Part 3: Hazard Identification and Risk Assessment

Pitman Borough is a rural community with growing commercial and residential areas.

Per Figure GC.16-2, the major water bodies include Alcyon Lake, Glen Lake, and Mantua Creek. Major transportation routes include State Highway 47 and Gloucester County Routes 553 and 624 (East Holly Avenue, West Holly Avenue, & Cedar Avenue). Additionally, Conrail railroad tracks run through the center of municipality. The land is gently rolling.

**Figure GC.16-2: Pitman Borough Base Map**

### Part 3: Hazard Identification and Risk Assessment

In addition, Table GC.16-3 is a compilation of demographic information for the municipality and comparison with the county, the four county region, and State of New Jersey.

**Table GC.16-3: Pitman Borough Demographics**  
(Source: Census DP-1, 2010 ACS 5 Year Estimates, DP 3, 4)

	Pitman Borough	Gloucester County	Region	New Jersey
2000 Population	9,331	254,673	974,328	8,414,350
2010 Population	9,011	288,288	1,024,926	8,791,894
Percent Change	-3.43%	13.2%	5.19%	4.49%
Population Density	3,976.1 / sq. mile	895.3 / sq. mile	754.25 / sq. mile	1,195.5 / sq. mile
Land Area	2.27 sq. miles	322.00 sq. miles	1,358.86 sq. miles	7,354.22 sq. miles
% of Population 18 and younger	22.4	24.4	24.1	23.5
% of Population 18 - 64	60.7	63.2	62.7	63
% of Population 65 and over	16.9	12.4	13.2	13.5

Table GC.16-4 illustrates how Pitman Borough ranks in the county, the four county region, and New Jersey.

**Table GC.16-4: Pitman Borough Demographic Rankings**

	Gloucester County (total of 24)	Region (total of 90)	New Jersey (total of 565)
Population Rank	12	31	254
Land Area Rank	16	56	371
Population Density Rank	3	23	153
Population Change Rank	21	74	-

Table GC.16-5 includes information related to economic and housing statistics for Pitman Borough, Gloucester County, the four county region, and New Jersey.

**Table GC.16-5: Pitman Borough Economics and Housing**  
(Source: USDA ERS, Census DP-1, 2010 ACS 5 Year Estimates, DP 3, 4; NJ LWD 2010)

	Pitman Borough	Gloucester County	Region	New Jersey
Date Incorporated	May 24, 1905	1686	-	-
Rural / Urban Status	Urban	Urban	Urban	Urban
Median Household Income	\$67,234	\$72,664	\$60,933	\$69,811
Total Number of Housing Units	3,705	109,796	397,990	3,529,033
Occupied Housing Units	3,489	104,271	372,472	3,176,069
Vacant Housing Units	216	5,525	25,518	352,964
Owner Occupied Housing Units	2,552	83,525	266,593	2,126,279

Building Permits	1	716	1,554	13,535
Largest Industry	Educational Services, and Health Care and Social Assistance	Educational Services, and health care and social assistance	Educational services, and health care and social assistance	Educational services, and health care and social assistance

Table GC.16-6 illustrates how Pitman Borough ranks in the county and the four county region.

**Table GC.16-6: Pitman Borough Ranking (Economics and Housing)**

	Gloucester County (total of 24)	Region (total of 90)
Median Household Income Rank	13	33
Vacant Housing Rank	10	30
Renter Occupied Housing Rank	8	30
Building Permits Rank	19	69

Figure GC.16-3 illustrates development patterns in Pitman Borough by examining housing units by year built. Nearly 19% of homes in Pitman Borough were built during the 1950s.

**Figure GC.16-3: Pitman Borough Housing Units by Year Built**  
(Source: 2010 ACS 5 Year Estimates, DP 4)

---

## Part 3: Hazard Identification and Risk Assessment

---

### Part 3.2: Hazard Priorities

*Part 3.2 includes hazard priority determinations per the Municipal Working Group.*

As a key step in the Hazard Identification and Risk Assessment (HIRA) process, the twelve (12) natural hazards identified in the NJ4 HMP<sup>1</sup> were discussed during the Municipal Working Group Work Sessions and the relative priority of these hazards was identified. The Municipal Working Group rated the hazards as follows:

#### High Priority

- Flood
- High Wind
- Severe Weather - Summer

#### Moderate Priority

- Severe Weather – Winter

#### Low Priority

- Dam Failure
- Drought
- Earthquake
- Extreme Temperature: Hot & Cold
- Wildfire

Three additional hazards were discussed but were not considered applicable to the municipality:

- Coastal Erosion & Sea Level Rise
- Geologic Hazards
- Levee Failure

---

<sup>1</sup> See Section 3: Hazard Identification and Risk Assessment.

---

## Part 3: Hazard Identification and Risk Assessment

---

### Part 3.3: Hazard Mapping

Part 3.3 includes cross references to hazard inventory and risk assessment mapping included in the NJ4 HMP Regional Hazard Mitigation Plan.

Table GC.16-7 provides information regarding hazard inventory mapping included in *Annex D: Hazard Profiles and Risk Assessments* of the NJ4 HMP that support the Hazard Identification and Risk Assessment (HIRA) for the Municipal Appendix. The indicated maps and exhibits correspond to the hazards identified by the Municipal Working Group in Part 3.2. The information represented by these maps will be used in the Critical Facilities Hazard Exposure Assessment described in Part 3.4.

**Table GC.16-7: Supporting Mapping and Exhibits**

Figure #	Hazard	Map	HIRA Contribution
Figure RP.D-11	Dam Failure	Dam Locations and Hazard Classification	Identify areas in proximity to rated dams
Figure RP.D-46	Flood	FEMA Flood Hazard Zones Preliminary FIRM (PFIRM)	Identify areas subject to periodic flooding (work-in-progress for revisions to effective FIRM)
Figure RP.D-99	Wildfire	Wildland Fuel Hazard Risk	Identify areas subject to wildfire
Figure RP.D-106	Wildfire	Wildland Urban Interface (WUI)	Identify areas subject to wildfire

The following hazards are not referenced as these hazards occur uniformly across the municipality and have the same potential impact on all properties and assets:

- Drought
- Earthquake
- Extreme Temperatures – Cold and Hot
- High Wind
- Severe Weather – Summer
- Severe Weather – Winter

---

## Part 3: Hazard Identification and Risk Assessment

---

### Part 3.4: Critical Facilities Inventory and Hazard Exposure Assessment

Part 3.4 includes:

- *Inventory information for municipal critical facilities*
- *Hazard exposure analysis results for municipal critical facilities*

Consistent with the process described in Section 3 of the NJ4 HMP Regional Hazard Mitigation Plan, Table GC.16-8 contains updated inventory information for municipal critical facilities including cross-references to related mitigation measures identified in Part 4 of the Municipal Appendix.

*Note: Shaded cells (if any) will be completed as part of follow-up efforts to be conducted as part of Mitigation Measure M-2 (see Part 4 of the Municipal Appendix).*

Table GC.16-9 provides the means to record results of overlaying critical facility locations with hazard mapping identified in Part 3.3. The results will indicate critical facilities that are potentially exposed to specific hazards.

*Note: This information will be used in critical site and facility assessments to be conducted as part of Mitigation Measure M-2 (see Part 4 of the Municipal Appendix).*

Hazards that apply to all critical facilities in the NJ4 region and will automatically be included in the proposed critical site and facility assessment process include:

- Earthquake
- High Wind
- Severe Weather – Summer
- Severe Weather – Winter

Hazards that do not relate to the proposed critical site and facility assessment process include:

- Drought
- Extreme Temperatures – Cold and Hot

As a result, these six (6) hazards are not included in the critical facility exposure assessment in Section 3 of the NJ4 HMP Regional Hazard Mitigation Plan.

**Part 3: Hazard Identification and Risk Assessment**

**Table GC.16-8: Pitman Borough (Gloucester County) Critical Facilities Inventory**

---

## Part 4: Mitigation Measures

---

### Part 4.1: Mitigation Goals and Strategy

Part 4.1 includes:

- *Goal statements reviewed and approved by the Municipal Working Group based on goals included in the Southern Delaware Valley Region (New Jersey) Multi-Jurisdictional Hazard Mitigation Plans (SDVR HMPs) approved by FEMA in 2010 and 2011 for Camden, Cumberland, Gloucester, and Salem Counties*
- *Overarching strategy for the municipality's mitigation program*

Goals were originally established by the Southern Delaware Valley Region Hazard Mitigation Steering Committee and validated by the four County Hazard Mitigation Working Groups in response to risk and capability assessment results.

As part of the plan update process, these goals were reviewed and edited by the Municipal Working Group for use in the Municipal Appendix. All mitigation measures in the Municipal Appendix are related to at least one of these four goal statements.

- **Goal 1: Improve education and outreach efforts** regarding potential risk of natural hazards and appropriate mitigation measures that can be used to reduce risk (including programs, activities, and projects)
- **Goal 2: Improve data collection, use, and sharing** to reduce the risk of natural hazards
- **Goal 3: Improve capabilities and coordination** at municipal, county, and state levels to plan and implement hazard mitigation measures
- **Goal 4: Plan and implement projects** to mitigate identified natural hazards, known problems, and areas of concern

Based on these goals, the results of the NJ4 HMP Regional Hazard Mitigation Plan HIRA, and experience of participants in the plan update process, the Municipal Working Group identified an overarching strategy for mitigation:

- Focus on projects to address known problems or areas of concern for critical facilities and vulnerable populations as additional initial risk reduction efforts
- Provide opportunities for residents and property owners to access available information about risk reduction and mitigation measures
- Identify additional areas of concern for critical facilities and vulnerable populations for future plan updates
- Institutionalize hazard mitigation into municipal activities and programs through regular interactions of the Municipal Working Group and better integration of related regulatory programs and planning initiatives
- Stay informed regarding changing conditions and related improvements in hazard and risk data due to future natural hazard events and increasing understanding of the effects of climate change and use the information as part of periodic evaluations of and refinements or additions to the municipality's mitigation program

The mitigation measures described in Parts 4.3 through 4.5 of the Municipal Appendix reflect this strategy.

## Part 4: Mitigation Measures

---

### Part 4.2: SDVR HMP Mitigation Measures

*Part 4.2 includes the status of mitigation measures identified for the municipality in the SDVR HMP.*

Known problems and areas of concern were the basis for mitigation measures identified in the SDVR HMP. In cases where these problems and concerns still existed at the time of the plan update, the related SDVR HMP mitigation measures were candidates for inclusion in the Municipal Appendix.

Table GC.16-10 identifies the status of mitigation measures included in the SDVR HMP. These entries were based on information provided by the Municipal Working Group. In some cases, the SDVR HMP mitigation measures were carried over as part of the Municipal Appendix as indicated in the “Comments” column and the far right-hand column of Table GC.16-10.

**Table GC.16-10: Status of Pitman Borough (Gloucester County) SDVR HMP Mitigation Measures**

Mitigation Action, Program, or Project	Status	Comments	Mitigation Measure # (Notes A & B)
<b>Pitman 1:</b> Engineering study to determine mitigation action for flooding on Howard Avenue, Lakeside Avenue, Lake Avenue, and Pointsett Avenue.	Not completed, not funded.	Issue is no longer considered valid. Therefore, mitigation measure is not included in updated Municipal Appendix.	N/A
<b>Pitman 2:</b> Monitor dam failure and flood risk/threat related to Alcyon Dam.	Completed.	Issue was resolved through municipal capital improvement funds used to upgrade the dam. Therefore, mitigation measure is not included in updated Municipal Appendix.	N/A

**Table GC.16-10 Notes:**

- A. See Tables GC.16-11 and GC.16-12 for municipal (M-#) mitigation measures
- B. See Table GC.16-13 for multi-jurisdictional (MJ-#) mitigation measures

## Part 4: Mitigation Measures

### Part 4.3: Municipal Mitigation Measures – Identification

Part 4.3 includes brief descriptions of mitigation measures that are considered the sole responsibility of the municipality.

Table GC.16-11 includes the list of mitigation measures that are considered the responsibility of the municipality. These mitigation measures:

- Reflect the goals and strategy identified in Part 4.1
- Include projects carried over from SDVR HMPs as detailed in Part 4.2
- Include new projects, programs or activities identified by the Municipal Working Groups including measures to address known problems or areas of concern for critical facilities and vulnerable populations
- Address Repetitive Flood Loss (RL) and Severe Repetitive Flood Loss Properties (SRL)<sup>1</sup> if applicable

*Note: Pitman Borough does not currently have RL or SRL properties per information provided by the New Jersey Department of Environmental Protection.*

Table GC.16-11 includes:

- Brief description of the mitigation action, program or project
- Hazard(s) addressed by the measure
- Relevant goal(s) addressed by the measure
- Whether the measure pertains to existing or new structures or both

*Note: Mitigation measures with discrete locations are shown in Figure GC.16-4.*

**Table GC.16-11: Pitman Borough (Gloucester County) Municipal Mitigation Measures Identification**

#	Mitigation Action, Program, or Project	Hazard(s)	Goal (s)	Existing or New Structures
M-1	Identify and pursue outreach and education opportunities to inform municipal residents, businesses, and property owners regarding: <ul style="list-style-type: none"> <li>• Current hazards and risks</li> <li>• Changing conditions and actions that may reduce / increase risk</li> <li>• Best practices for hazard mitigation at the individual or property level.<sup>2</sup></li> </ul>	All	Goal #1	Both
M-2	Prioritize critical facilities and complete site and facility surveys to identify vulnerabilities and potential mitigation measures.	All	Goal #2	Existing
M-3	Prioritize recurrent drainage problem areas and initiate data collection to track unreimbursed damages and related response and recovery expenses.	All	Goal #2	Existing

<sup>1</sup> See Section 3: Hazard Identification and Risk Assessment and related portions of Annex D of the NJ4 HMP Regional Hazard Mitigation Plan for a description of RL and SRL properties.

<sup>2</sup> For example, individual property owners can be informed about back-up power alternatives such as initial battery back-up for power disruptions.

## Part 4: Mitigation Measures

#	Mitigation Action, Program, or Project	Hazard(s)	Goal (s)	Existing or New Structures
M-4	Conduct regular Municipal Working Group meetings consistent with the plan maintenance program and the Municipal Adoption Resolution.	All	Goal #3	Both
M-5	Install permanent back-up emergency power generator at Public Works Garage (CF-6).	All	Goal #4	Both
M-6	Install permanent back-up emergency power generator at Wastewater Sewer Lift Station on Lakeview Avenue (CF-7).	All	Goal #4	Both
M-7	Install permanent back-up emergency power generator at Wastewater Sewer Lift Station on Lambs Road (CF-8). <sup>3</sup>	All	Goal #4	Both
M-8	Install permanent back-up emergency power generator at Elwood Kindle Elementary School (CF-13).	All	Goal #4	Both
M-9	Install permanent back-up emergency power generator at W.C.K. Walls Elementary School (CF-14).	All	Goal #4	Both
M-10	Install permanent back-up emergency power generator at Memorial Elementary School (CF-15).	All	Goal #4	Both
M-11	Install permanent back-up emergency power generator at The First Presbyterian Church in Pitman Preschool (CF-17).	All	Goal #4	Both
M-12	Support acquisition and installation of permanent back-up emergency power generator at Brookfield Group Home (CF-20).	All	Goal #4	Both
M-13	Support acquisition and installation of permanent back-up emergency power generator at Alcyon Group Home (CF-21).	All	Goal #4	Both
M-14	Support acquisition and installation of permanent back-up emergency power generator at Grandview Group Home (CF-22).	All	Goal #4	Both
M-15	Engineering study to identify drainage capacity and requirements for upgrades at Pitman Avenue & Commerce Avenue. <sup>3</sup>	Flood	Goal #4	Existing
M-16	Engineering study to identify drainage capacity and requirements for upgrades at West Jersey Avenue & Grandview Avenue. <sup>3</sup>	Flood	Goal #4	Existing
M-17	Improve drainage system on Spruce Avenue.	Flood	Goal #4	Both
M-18	Harden / retrofit water pump station at Lincoln Avenue (CF-11).	High Wind	Goal #4	Both
M-19	Harden / retrofit water pump station at Edgemore Avenue and Lindon Avenue (CF-12).	High Wind	Goal #4	Both
M-20	Harden / retrofit Public Works garage to include upgrade to roof (CF-6).	High Wind	Goal #4	Both
M-21	Hazard threat assessment related to water pump stations located at Lincoln Avenue / Edgemore Avenue and Lindon Avenue (CF-11 / CF-12). <sup>4</sup>	Risk / Threat Assessment	Goal #4	Both

<sup>3</sup> Project included in Letter of Interest (LOI) for DR 4086 HMGP. LOI project #1231 budget = \$500,000.00.

<sup>4</sup> Although natural hazards are the focus of the NJ4 HMP, these technological hazards are a continuing concern to the community and are documented in the Municipal Appendix to reflect the full range of hazards within Pitman Borough.

## Part 4: Mitigation Measures

### Part 4.4: Municipal Mitigation Measures – Implementation

Part 4.4 includes a tabulation of relevant aspects related to the implementation of the municipal mitigation measures.

Table GC.16-12 includes information identified by the Municipal Working Group:

- Part(ies) responsible for following up with implementation of the measure
- Priority for implementation considering a range of criteria<sup>5</sup>
- Project Type to help determine funding options and implementation mechanisms at the municipal level<sup>6</sup>
- Estimated Cost, including estimates provided by the Municipal Working Group or approximate ranges for projects that are in early stages of development
- Target Date, indicating desired completion dates assuming availability of funding
- Next step(s) anticipated to implement the identified mitigation measures at the municipal level

**Table GC.16-12: Pitman Borough (Gloucester County) Municipal Mitigation Measures Implementation**

#	Mitigation Action, Program, or Project	Responsible Part(ies)	Priority	Project Type	Estimated Cost (\$)	Target Date	Next Step(s)
M-1	Identify and pursue outreach and education opportunities.	Municipal OEM	High	Public Outreach and Education	Staff time commitment	On-going	<ul style="list-style-type: none"> <li>▪ Work with County Working Group to identify resource needs and availability.</li> <li>▪ Identify target audience(s).</li> </ul>
M-2	Prioritize critical facilities and complete site and facility surveys to identify vulnerabilities and potential mitigation measures.	Municipal OEM and Facility Managers	High	Data Acquisition and Management	Staff time commitment	On-going	Review critical facility list and establish priorities, procedures, and tentative time schedule for conducting site and facility surveys.
M-3	Prioritize recurrent drainage problem areas and initiate data collection to track unreimbursed damages and related response and recovery expenses.	Municipal OEM and Municipal Working Group	High	Capabilities and Coordination	Staff time commitment	On-going	Identify recurrent drainage problem areas, establish priorities, and identify data collection procedures.
M-4	Conduct regular Municipal Working Group meetings.	Municipal OEM and Municipal Working Group	High	Capabilities and Coordination	Staff time commitment	On-going	Establish regular Municipal Working Group membership, reporting requirements, and meeting / work session schedule.

<sup>5</sup> See Section 4: Mitigation Measures and related portions of Annex E of the NJ4 HMP Regional Hazard Mitigation Plan for a description of evaluation criteria considered by the Municipal Working Group.

<sup>6</sup> See Section 4: Mitigation Measures and related portions of Annex F of the NJ4 HMP Regional Hazard Mitigation Plan for a description of project types and related information regarding funding options and implementation mechanisms.

## Part 4: Mitigation Measures

#	Mitigation Action, Program, or Project	Responsible Part(ies)	Priority	Project Type	Estimated Cost (\$)	Target Date	Next Step(s)
M-5	Install permanent back-up emergency power generator at Public Works garage (CF-6).	Municipal OEM and Public Works Department	High	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-6	Install permanent back-up emergency power generator at Wastewater Sewer Lift Station on Lakeview Avenue (CF-7).	Municipal OEM and Public Works Department	High	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-7	Install permanent back-up emergency power generator at Wastewater Sewer Lift Station on Lambs Road (CF-8).	Municipal OEM and Public Works Department	Low	Back-up Emergency Power Generator	< \$100K	Three to five years	Conducting project scoping.
M-8	Install permanent back-up emergency power generator at Elwood Kindle Elementary School (CF-13).	Municipal OEM and Board of Education	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-9	Install permanent back-up emergency power generator at W.C.K. Walls Elementary School (CF-14).	Municipal OEM and Board of Education	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-10	Install permanent back-up emergency power generator at Memorial Elementary School (CF-15).	Municipal OEM and Board of Education	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-11	Install permanent back-up emergency power generator at The First Presbyterian Church in Pitman and Municipal OEM	The First Presbyterian Church in Pitman and Municipal OEM	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-12	Support acquisition and installation of permanent back-up emergency power generator at Brookfield Group Home (CF-20).	Brookfield Group Home and Municipal OEM	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-13	Support acquisition and installation of permanent back-up emergency power generator at Alcyon Group Home (CF-21).	Alcyon Group Home and Municipal OEM	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.
M-14	Support acquisition and installation of permanent back-up emergency power generator at Grandview Group Home (CF-22).	Grandview Group Home and Municipal OEM	Moderate	Back-up Emergency Power Generator	< \$100K	One to three years	Conducting project scoping.

## Part 4: Mitigation Measures

#	Mitigation Action, Program, or Project	Responsible Part(ies)	Priority	Project Type	Estimated Cost (\$)	Target Date	Next Step(s)
M-15	Engineering study to identify drainage capacity and requirements for upgrades at Pitman Avenue & Commerce Avenue.	Municipal OEM and Public Works Department	High	Private Property Flood Mitigation	< \$50K	One to three years	Develop scope of work and procure professional consulting services.
M-16	Engineering study to identify drainage capacity and requirements for upgrades at West Jersey Avenue & Grandview Avenue.	Municipal OEM and Public Works Department	High	Private Property Flood Mitigation	< \$50K	One to three years	Develop scope of work and procure professional consulting services.
M-17	Improve drainage system on Spruce Avenue.	Municipal OEM and Public Works Department	High	Private Property Flood Mitigation	< \$100K	One to three years	Conducting project scoping. <sup>7</sup>
M-18	Harden / retrofit water pump station at Lincoln Avenue (CF-11).	Municipal OEM and Public Works Department	High	Building Retrofit	\$100K - \$500K	One to three years	Conducting project scoping.
M-19	Harden / retrofit water pump station at Edgemore Avenue and Lindon Avenue (CF-12).	Municipal OEM and Public Works Department	High	Building Retrofit	\$100K - \$500K	One to three years	Conducting project scoping.
M-20	Harden / retrofit Public Works garage to include upgrade to roof (CF-6).	Municipal OEM and Public Works Department	High	Building Retrofit	\$100K - \$500K	One to three years	Conducting project scoping.
M-21	Hazard threat assessment related to water pump stations located at Lincoln Avenue / Edgemore Avenue and Lindon Avenue (CF-11 / CF-12).	Municipal OEM	High	Risk / Threat Assessment	< \$50K	One to three years	Develop scope of work for risk / threat assessment and procure professional consulting services.

## Part 4: Mitigation Measures

### Part 4.5: Multi-Jurisdictional Mitigation Measures

*Part 4.5 includes brief descriptions of mitigation measures that require multiple jurisdictions to implement.*

During the Municipal Working Group Work Sessions, the Municipal Working Group identified some SDVR HMP mitigation measures as well as new areas of concern as mitigation measures where implementation requires participation or leadership from other levels of government, including county, state, and federal agencies. These multi-jurisdictional mitigation measures are included in Table GC.16-13.

*Section 4: Mitigation Measures* of the NJ4 HMP Regional Hazard Mitigation Plan describes multi-jurisdictional implementation strategies in detail. Section 4 identifies multi-jurisdictional mitigation measures that Municipal Working Groups believe are partly or wholly the responsibility of County agencies. These measures have been referred to the County Working Group for consideration. As part of the mitigation measures in the County Appendix to the NJ4 HMP Regional Hazard Mitigation Plan, the County Working Group will be working with the municipalities to identify:

- Specific responsibilities amongst different level(s) of government to address these problem areas
- Mitigation measures or related projects which may address the described problem areas that are already acknowledged as County responsibilities including identifying the appropriate County agency or department taking the lead role and status of implementing these mitigation measures
- Which, if any, additional mitigation measures the member agencies of the County Working Group will assume responsibility to implement

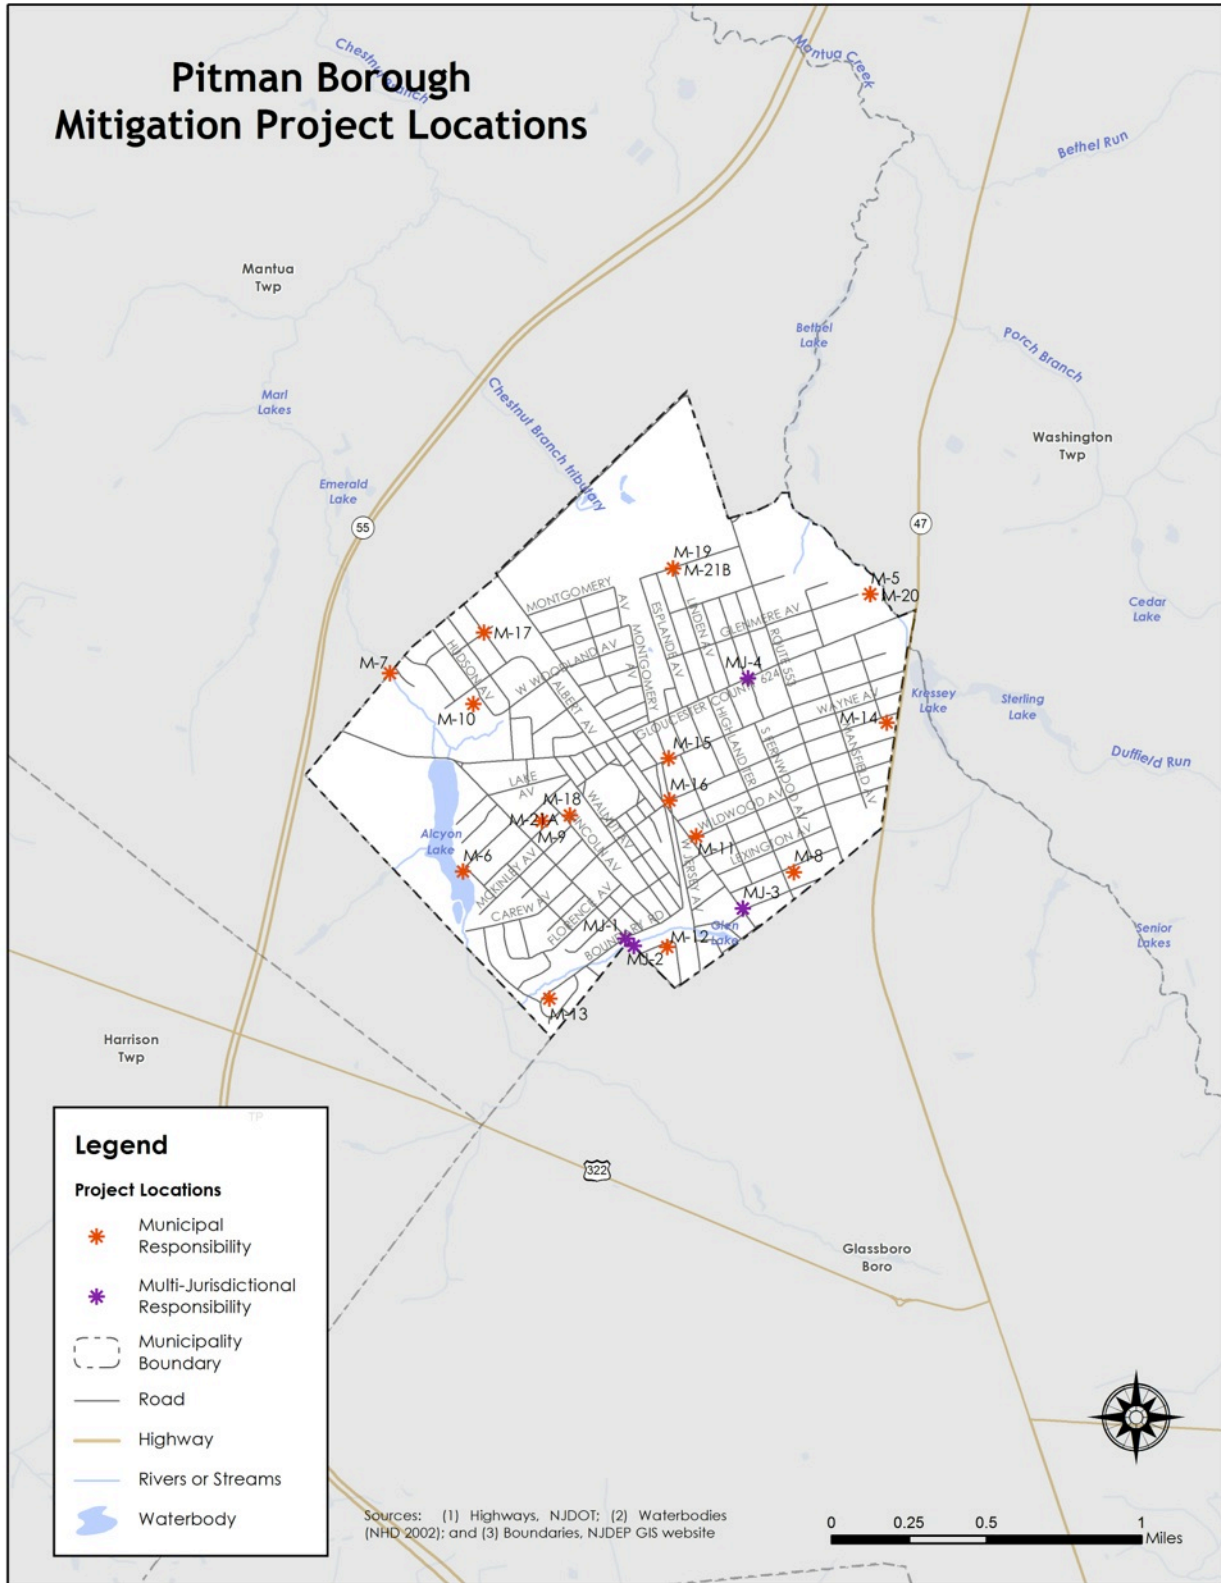

*Note: Multi-jurisdictional mitigation measures with discrete locations are shown in Figure GC.16-4.*

**Table GC.16-13: Pitman Borough (Gloucester County) Multi-Jurisdictional Mitigation Measures**

#	Problem Description	Hazard(s) Addressed	Goal Addressed	Applies to Existing or New Structures	Potential Partners	Priority
MJ-1	Dredging of storm drains at Alcyon Boulevard and Cedar Avenue.	Flood	Goal #4	Both	Municipal OEM, Gloucester County DPW	High
MJ-2	Improve storm drainage at Cedar Avenue.	Flood	Goal #4	Both	Municipal OEM, Gloucester County DPW	High
MJ-3	Improve storm drainage at County Route 553 (South Broadway) & Adams Avenue.	Flood	Goal #4	Both	Municipal OEM, Gloucester County DPW	Moderate
MJ-4	Improve storm drainage at County Route 624 (East Holly Avenue) and South Brentwood Avenue.	Flood	Goal #4	Both	Municipal OEM, Gloucester County DPW	Moderate

Part 4: Mitigation Measures

## Part 4: Mitigation Measures

---

### Part 4.6: Authorities, Policies, Programs, Resources, and Plan Integration

Part 4.6 includes three (3) subparts:

- **Authorities, Policies, and Programs** - Cross referencing relevant information and recommendations in the NJ4 HMP Regional Hazard Mitigation Plan regarding existing authorities, policies, and programs in the region and specific information about the jurisdiction's participation and continued compliance in the National Flood Insurance Program (NFIP)
- **Capabilities and Coordination** - Cross referencing relevant information and recommendations in the NJ4 HMP Regional Hazard Mitigation Plan regarding improving capabilities and coordination at the municipal level and specific information about the jurisdiction's available resources
- **Plan Review and Integration** – Identifying plans and programs included in the development of Plan Integration recommendations in the NJ4 HMP Regional Hazard Mitigation Plan

### Authorities, Policies, and Programs

Section 1.3: *Existing Authorities, Policies, Programs, and Resources* of the NJ4 HMP Regional Hazard Mitigation Plan summarizes relevant authorities, policies, and programs related to hazard mitigation in the region including the NFIP.

Continuing municipal participation in the NFIP as part of the implementation of the NJ4 HMP by the municipality, includes:

- Involvement of Floodplain Manager / Administrator during the NJ4 HMP implementation process
- Commitment to adopt updated FIRMs and evaluate / update the municipality's Flood Management Plan and/or Ordinance as appropriate per recommendations in Section 4.6 of the NJ4 HMP Regional Hazard Mitigation Plan

### Capabilities and Coordination

The update of the SDVR HMP included reexamining municipal hazard mitigation capabilities; potential for improving capabilities and coordination within and between jurisdictions; and, plan integration considerations. Section 1.3: *Existing Authorities, Policies, Programs, and Resources* of the NJ4 HMP Regional Hazard Mitigation Plan includes summary statements regarding regional resources and the impact of resource limitations on the overall approach to the NJ4 HMP mitigation strategies. Section 4: *Mitigation Measures* and related portions of Annex F of the NJ4 HMP Regional Hazard Mitigation Plan include summary observations and recommendations concerning:

- Hazard mitigation planning and mitigation measure implementation capabilities and coordination at the regional, county, and municipal levels
- Coordination within municipal governments, between municipal governments and their communities, and between municipal, county, and state agencies responsible for hazard mitigation

### Plan Review and Integration

Specific documents obtained during the plan update process from the Municipal Working Group include:

- Drainage Control Ordinance
- Economic Development Strategic Plan (2010)<sup>7</sup>
- Emergency Operations Plan – Base Plan
- Flood Control (2009)
- Flood Damage Prevention Ordinance (1982)
- Master Plan (2002)
- Stormwater Management Ordinance
- Stormwater Management Plan (2006)
- Zoning Map (2011)<sup>8</sup>

Table RP.4-4 in *Section 4.6: Plan Review and Integration* of the NJ4 HMP Regional Hazard Mitigation Plan identifies the primary plans and documents collected from each of the participating municipalities. In addition, Annex E.2 provides a complete list of all the plans and documents collected from the participating municipalities.

Section 4.6 also includes the results of reviewing the primary plans and documents to determine the extent to which these documents reflect up-to-date hazard risk and mitigation. In addition, Section 4.6 includes recommendations for integrating the results of the NJ4 HMP, including hazard mitigation data, goals, measures, and/or recommendations with existing plans and programs at the municipal level that are relevant to all participating municipalities and incorporated by reference in each of the jurisdiction-specific Appendices including:

- Hazard Assessments
- Emergency Operations Plans
- Floodplain Management Ordinances
- Master Plans and Reexamination Reports
- Other plans and documents

The plan maintenance process includes a commitment to review and follow these recommendations during future scheduled updates of these various documents as considered appropriate by the Working Group and the governing body of the municipality.
